## Gabby!

## Thank You for Helping Kids Like Gabby

Gabby has shown remarkable strength since birth. Born with severe intestinal injuries, she underwent multiple surgeries in her early years, and her family ultimately turned to Orlando Health Arnold Palmer Hospital for Children for a deeper understanding of her condition.

After a thorough evaluation, Gabby's care team discovered that her colon and portions of her small intestine were not functional and needed to be removed. Today, Gabby lives with intestinal failure, relying on a feeding tube and IV hydration, though innovative treatments like enzyme therapy have allowed her to enjoy small amounts of solid food again.

Through frequent hospital visits, Gabby's team prioritizes her comfort and overall well-being. Her family is grateful for the compassionate, holistic care that supports her joyful spirit.

**Donations provided Child Life Services and activities that have assisted Gabby throughout her medical journey.**
